01 Introduction

The Almo Collegio Borromeo, a university college of merit recognized and accredited by the Ministry of Universities and Research (MUR), has made **8 places available for students who enroll in the first year of a master's degree or master's degree 'plus' at the University of Pavia, in the academic year 2020/2021.**

Places are awarded by selection based on qualifications and tests. The Board of Directors will establish the ranking of the suitable candidates and will award the available study places among them, with possibly more than the number indicated above.

Maintaining this place is subject to annual confirmation, or revocation, in compliance with the requirements of merit and the conditions laid out by the College regulations and the hospitality contract.

Because of a special agreement, **2 more places are available for foreign students who enroll in the first year of the joint master's degree (University of Pavia and IUSS, Scuola Universitaria Superiore di Pavia) in Psychology, Neuroscience and Human Science.** These places are awarded according to a specific evaluation process.

Collegio Borromeo institutionally participates in the IUSS, Scuola Universitaria Superiore di Pavia: participation in the ordinary courses of the School is linked to a specific call for places. Students of the ordinary courses are required to be students of the Colleges as indicated in the IUSS call. The place conferred by the College is not bound to the admission to the ordinary courses of the IUSS.

Consistent with the project's founder, San Carlo Borromeo, the College presents itself as a place for human and cultural development, offering students, in addition to hospitality, numerous opportunities for qualification and in-depth study, foreign exchanges, tutoring and post-graduate orientation on a personalized educational plan - drawn up according to the DM 672 and 673/2016 - linked to non-formal learning to be carried out in the academic year.

Collegio Borromeo is a member of the Colleges of Merit National Conference, created by the Ministry as support organization for the national system of Colleges.

The Almo Collegio Borromeo has prepared a **specific protocol in order to regulate**

all the measures to prevent and control the spread of Covid-19, according to the national and regional law; the protocol foresees security measures for the staff members and the Students. The Almo Collegio Borromeo relies on the collaboration of the University of Pavia, the IRCCS Policlinico San Matteo di Pavia, the ATS of Pavia and the internal health system to develop the protocol of evaluation and

prevention for students, guest and staff members.

From 2019 the Almo Collegio Borromeo is the first Collegio in Italy to be plastic free. Students have free access to water dispensers and through their badge they may print any didactic material on recycled paper. The Collegio has also started a *carbon-neutral* campaign for next decade.
